BWD Automotive Releases 324 New Part Numbers

NEW YORK, N.Y., December 21, 2017 - Standard Motor Products, Inc. (SMP) announces the addition of 324 new part numbers to its BWD® engine management line, covering domestic and import vehicles. The release expands coverage through the 2017 model year by an additional 167 million VIO. To view the highlights, watch BWD's New Part Spotlight Vol. 22 at www.YouTube.com/BWDBrand.

BWD® continues to expand its line of variable valve timing (VVT) components. With the addition of 7 VVT Sprockets and 1 VVT Solenoid, BWD's VVT line now totals more than 300 parts. To learn more about BWD's after-market leading VVT coverage, visit www.BWDVVT.com

The brand also introduced 51 new exhaust gas temperature (EGT) sensors for both diesel and gas applications. Other notable additions include 26 fuel vapor canisters, 22 vehicle speed sensors and 100 additional sensors.

All new applications are listed in the eCatalog found at www.BWDbrand.com and in electronic catalog providers.

BWD manufactures and distributes a premium line of engine management products for the automotive aftermarket. BWD's product line features an array of high technology critical components for ignition, emission, and fuel systems as well as growing categories such as diesel, turbochargers, TPMS, VVT, and new MAF sensors.

About SMP:

SMP supplies independent professional auto technicians and automotive do-it-yourselfers with high quality replacement parts for engine management ignition, emission and fuel systems as well as temperature control products for domestic and import cars and light trucks. SMP products are sold through both traditional and non-traditional distribution channels. For more information, download the SMP® Parts mobile App or, visit www.smpcorp.com.
